

HÜCO listed in TecDoc since 01.10.2009

HÜCO Automotive GmbH is listed in TecDoc catalogue since 01.10.2009. The industry-leading information system provides the spare part market with constantly updated product datas of all prominent producers for current repair methodes.

Repair shops can quickly find all the required datas to our extensive assortment now. These repair shops get the possibility to inform themselves in detail about our ignition modules, ignition coils, air flow meters, relays, wheel speed sensors, fuel pumps, regulators and rectifiers in the TecDoc catalogue.

Strong partnership

TecDoc created in cooperation with numerous partners from trade, industry and repair shops a new standard for that sector. The information system offers the advantage to the repair shops to identify and order spare parts directly. More than 1.000.000 articles of 48.000 different car types are listed in TecDoc.

TecDoc was founded in 1994 from the automotive supplier industry and the German GVA (Gesamtverband Autoteilehandel). The company's gaol is to provide the article information to the market as fast and as qualified as possible.
